PDF Handshake Module for IPA Systems MGS3 OPI Server

IPA Systems Ltd announce the release of a PDF Handshake Module for their well established OPI Server MGS3.

PDF files will be picked up by the MGS3 Logger and sent to the PDF Handshake software. This would make a low res EPS view file for placement and an EPS file for inclusion in the final page output, the mechanism is the same as for logging any other image.

The PDF Handshake module is integrated into MGS3 and will not require any additional hardware.

Version 3552 is the minimum release required, Version 3600 is recommended.

It is available immediately for shipment.

For further information on this or any other product please contact IPA Systems Ltd on 01242 573344 or via email at sales@ipasystems.co.uk.
